

### **Are We There Yet?**

1. In order to know if the end of days is here yet, look for an increasing number of people claiming to be Jesus, also for an increase in wars, in natural disasters, in persecution of Christians and in people's love growing cold (Matthew 24:3-14; 32-35).
2. In order to know if the end of days is here yet, those who miss the rapture need to look for someone going into the temple in Jerusalem and claiming to be God (Matthew 24:15-22).
3. In order to know if the end of days is here yet, those who miss the rapture need to look for an increase in people claiming to be able to save them, for darkness and falling stars and for Jesus appearing in the sky in power and glory (Matthew 24:23-31).

#### *Action point:*

*The signs are pointing to the return of our savior soon! It electrifies our faith to think about that. That should generate action. What can we do? We can't do everything, but we can do something. If we want more people to be raptured and miss the tribulation then we need to get to work inviting them to come to Jesus. Our church can partner with you in doing that. Here's how it can work. If all the families in our church each invite one family in the next 6 months and if only those invited by 15 families stick around then there will be about 60 people who will be with us meeting the Lord in the clouds and be spared the Tribulation! Commit to bringing one family to church with you over the next 6 months. Make a list of 5 families that you could invite. Pray and then invite at least one of them and let's watch God work!*
